**CTTC**

Based on the company's recognition of the importance of its role in the Kuwaiti economy and society, **Coast** seeks to be an active community player in other areas such as teaming up with organizations with a good social cause such as blood banks. To that end, Coast seeks to identify the worthiest projects, in which to participate which will have the most positive impact on the community.

In this context, Coast was proud to participate in the blood donation drive held in the Kuwait Blood bank Premises arranged by **Pakdonors** Organization aiming to encourage doners, mainly from Pakistani nationality, which in turn have driven other nationalities including Kuwaiti Nationals to take part in this event.
